

## **Spring Newsletter 2015**

### **Success in Steel**

Recently, Haley Engineering Ltd attended the Sedgemoor Business Excellence Awards and were awarded the trophy for Large Business of the Year sponsored by Alstom

### **Haley Engineering Is Going Nuclear**

Haley's are pleased to announce that we have passed our audit from Nuclear AMRC and are awaiting Certification as a Fit 4 Nuclear Sub Contractor. This will enable us to work on the Hinkley Point C project near Bridgwater here in Somerset

William Haley Engineering Limited

1420 Gloucester Business Park

## **Projects**

Haley Engineering has just completed a 300 Tonne unit for Kier in Gloucester. Feedback received was positive –

“I wanted to take the opportunity to thank you and your team for the excellent service you have provided, you have always been willing to assist with design issues, and the operatives, especially Lee and his gang have been a pleasure to work with on site.”

“We will look forward to working with you and your team again on future projects.”

Kier Construction

## **Skanska Stats**

Such is the increasing strength of our relationship with Skanska that Haley's has completed 33 projects for Skanska, 28 being schools in either Bristol or Essex with the final 3 being Colston, Hayleigh and Redfield Primary schools in Bristol completed in March of this year.

Larger Projects include Woodlands School Basildon, Essex – order value £1,1 million and South Essex College Gray's, Essex – order value £1,6 million.

*Steel frame plan for Redfield Primary School, Bristol for Skanska*

## **Safety**

In line with the ever importance of safety, Haley's are pleased to announce that we will be introducing an in-house Incident Free Environment (IFE) program produced along the lines of the highly successful courses run by such companies as Skanska and Lend Lease.

As the title suggests, the aim is to have all work areas – both in the factory and on site - free from accidents and a safer and better place to work.
